

Northeast Harbor Library Archives Lewis Gerrish Architectural Drawing Collection Finding Aid

Creator: Fred L. Savage

Dates: 1880-1920

Extent: 240 linear feet

Accession Number:

Record Numbers:

Scope and Content Note:

This collection of Fred L. Savage (1861-1924) architectural drawings includes both realized and unrealized projects. It contains primary source material for Savage's work representing some of the most pre-eminent architecture on Mount Desert Island. Some of these buildings have burned down or been renovated and remodeled. These plans are a vital piece in the understanding what Northeast Harbor looked like when it was first settled. There are plans from other architects in this collection what came from Savage's office. Many of the materials are undated.

This collection includes tracing papers, blueprints, linens, and paper plans, as well as some building specifications.

Source of Acquisition:

This collection came to the library in 1985 as a donation from Lewis Gerrish, Jr. He discovered this collection of Savage's architectural drawings in the basement of a home formerly owned by Savage in Bar Harbor, Maine. Mr. Gerrish donated the plans for properties in Northeast and Seal Harbors to the Northeast Harbor Library

Access and Use:

This collection is open to research and reproduction.

Biographical Information:

Fred L. Savage (1861-1924) was a renowned architect, widely known for his Shingle style cottages and homes designed for the summer residents of Mount Desert Island.

Call Number	Title
